A MEETING to organize an electric light company was held in Fielders' hall on Wednesday evening, at which there was a large attendance, the 800 shares of subscribed stock being well represented. It was decided to organize the company and a committee was appointed to secure incorporation by letters patent.

THE Medicine Hat general hospital is a most excellent and deserving institution, and its founder J. Niblock, divisional superintendent on the C. P. R., is most energetic and comprehensive in his efforts to secure the financial support necessary to its continued existence and usefulness. Last fall Mr. Niblock levied contributions on all the railroad towns in the Northwest by putting on tour a very talented concert troupe, whose success in pleasing was far more than value for the cash received. The plan was so successful that he proposes this season to repeat and improve on it, by securing the services of a larger number of equally talented professionals, including Miss Nellie Evans, vocalist, pianist, and violinist, and Miss Alexander, vocalist, who will visit Edmonton—now a railroad town and in a position to benefit by the hospital—on October 5th and 6th. The new school building has been secured for the entertainment.

THE new addition to the Edmonton school building was occupied for the first time on Monday of last week. The junior pupils under Miss Henderson occupy the old building, the intermediate, under Miss Osborne the new building and the senior pupils under Mr. Richardson occupy the wing erected three years ago.

MORE SAMPLES.

Wednesday's train carried Edmonton's contribution to the Winnipeg exhibition. It had been collected chiefly within the previous week by the personal exertions of M. McCauley, president of the agricultural society. It was altogether impossible to get threshed grain, except as an expense that the circumstances would not justify, as the farmers were so busy with their harvest. As the root crops had not yet been dug it was very difficult to get suitable samples, and what were secured were sent rather to show that such things could be grown here than as samples of the best growth that could be made. In grains and grasses there is no apology to offer. The district that has a better showing in any particular of these two departments is a dandy, and the district that can produce a better all around showing does not exist. In regard to this exhibit, there is no article of forced growth and every article was grown within a radius of 20 miles of Edmonton. The following are a few of the measurements of grain in straw: Ladoga wheat, pulled, 5 ft., oats, pulled, 6 ft., 3 inches, oats, pulled 6 ft., 1 inch, oats, cut, 5 ft., rye cut, 4 ft., 10 inches, barley, 6 rows, pulled, 4 ft., 2 inches, barley, 2 rows, pulled, 5 ft., 7 in., hemp, 6 ft., 3 inches. Some of the roots and vegetables measured or weighed as follows: White radish, 20 inches long, by 20 inches around, weighing 1½ lbs. Black radish, 22 inches long by 1½ inches around, weighing 5 lbs. white turnip, 20½ lbs. sweet turnip, 13½ lbs. blood beet, flat, 4 lbs. Cabbage 22 lbs. white carrot, 10 inches around, horn carrot, 9½ inches around, McLennan potatoes, 2 lbs. 5 oz. 18½ lb. 18 inches around, Edmonton seedlings, 3 lbs. 17½ by 12 inches around, white seed onion, 11 inches around, sun flower, 39 inches around and 15 inches in diameter. There were 30 distinct varieties of native grasses, besides the cultivated grasses mentioned last week. The varieties of wheat were Ladoga, genesee club, red club, red fife, azof, red tern, white club, white fife, Colorado, white Russian and red chaff. The oats were, white Egyptians white, cluster, white Austen, black tree, white tree, black side and white side. The barley was six rowed, common two rowed and two rowed chevalier. There was also common white field peas and green corn well grown fit for use. The potatoes were: beauty of Hebron, McLennan, Edmonton seedlings, Rural New York, No 24 tray beauty, early puritan and early rose. Other roots, vegetables and sundries were: white onions, celery, white red and horn carrots, flat red root, tobacco, cabbages, sunflower heads, hemp.

Mr. McCauley left for Winnipeg on Friday's train to attend the exhibition and take charge of the samples sent. Besides the articles already mentioned he took a frame of honey from Thos. Henderson's hive, and several bunches of flowers from the gardens in town in proof not only of the capacity of this soil and climate for growing flowers but also in proof of the almost entire freedom from frost which we have enjoyed up to date.

RIFLE ASSOCIATION.

A meeting of the council of the Edmonton rifle association was held in Jas. McDonald's real estate office on Wednesday evening, when arrangements were made for the annual matches which it was decided should convene on October 26th. Vice-patron's match—300, 400 and 500 yards; seven shots at each range, any rifle. Association match—200, 400 and 500 yards; seven shots at each range; snider rifle. All Comers match—300 and 500 yards; five shots at each range; any rifle. Ladies' Match—400 yards, five shots; any rifle. Consolation match—200 yards, five shots; any rifle. Snitting shots to be paid for, 10c each.

EDMONTON AGRICULTURAL SOCIETY.

A meeting of the directors was held on Saturday afternoon at 2 p. m. in the school house. Francis M. McCauley, President, G. S. Long, Wm. A. Walker, John Leach, D. B. Wilson, M. McLeod, J. C. C. Brown, R. B. Kelly and W. H. Stephens. The judges for the exhibition on October 26, were selected and the following committee was appointed to make all necessary arrangements for same: M. McCauley, John Leach, John Cameron, D. B. Wilson and Campbell Young.

IMPORTANT ANNOUNCEMENT.

I beg respectfully to inform my customers and the Public of Northern Alberta, owing to rapidly increasing business I have found it necessary to remove to more convenient premises in Jasper Avenue. And I would now take this opportunity thanking my numerous customers for past favors, and assure them, that as in the past, will still continue to be my aim to deserve the esteemed patronage which hitherto have so liberally accorded to me.

I have pleasure in directing attention to the enormous consignment of Fall Goods, opened out, which for value and variety quite eclipse anything yet offered to the Edmonton Public.

Dealing neither in Groceries nor Provisions, the high class Dress Goods, Silks, Velvets, etc., which I carry, escape the dust, and other deteriorating influences which so adversely accompany the handling of mixed merchandise; and greater scope is also afforded for keeping a more complete and better assorted stock of the lines dealt in.

LADIES' DEPARTMENT.

DRESS GOODS, MILLINERY, ETC.

Space prevents enlarging on this head, but I beg to state that nothing in the West can surpass my line of Dress Goods and Trimmings, which embrace nearly every line and which for durability, beauty, and cheapness, far exceed anything yet shown. In Millinery also the selection now on view is simply A. 1. In Silks, Satins, Velvets, Flashes, I have secured a most lovely and complete assortment. I would direct special attention to a very fine range of Bengaline Silks in nearly every shade, very suitable evening wear. In Walking Jackets, Fur Coats and Caps, Mantle Cloths, Jersey and Shawls there will be found nothing to surpass them in town. Also in Ladies' and Girls' undergarments, Corsets, etc., etc., will be found a very large selection. And in Ladies' Fancy Goods every kind will be found an endless and most complete assortment.

MEN'S AND BOYS' DEPARTMENT.

A REGULAR SLAUGHTERING IN THIS LINE.

20 % OFF FOR CASH.

Largo as my New premises are, I find them too small for the immense stock which I carry. I have therefore given instructions to have a large addition immediately erected. But mean while I have no room to put the ENORMOUS FALL CONSIGNMENT of READY MADE CLOTHING still to arrive, and I am therefore compelled to offer the stock now in hand at the above sacrifice. It comprises a very fine assortment which may now be had almost cost.

HOUSE FURNISHINGS, CROCKERY, CHINA, ETC.

Parties furnishing will do well to inspect the large assortment of these goods now displayed consisting of Carpets, Rugs, Floor Cloths, Table Covers, Oil Cloths, Piano Covers, Curtains (all kinds), Window Blinds, Blankets, Quilts, Towels, Sheetings, Napkins, Tea Requisites, Dinner and Tea Sets, Glass and China ware, Brackets, Handmade Mirrors, Pictures, Ornaments.

Parties wishing for samples of Dress Goods, Etc., will receive prompt attention; as to all desirous of inspecting and pricing the goods, a cordial welcome will be given as to one confident that my values will satisfy the keenest buyer.

Buying, as I do, direct from Manchester, England, my Establishment is now designated

THE MANCHESTER HOUSE.

And under the new name it will continue to be the

CHEAPEST STORE IN THE CITY.

C. & E. RAILWAY SOUTH.

Jas. Mowat arrived from the C. & E. works south of Calgary last week. When he left the rails were laid to Pine Creek, and the grading was finished to Mosquito Creek, and the graders were strung out nearly to Macleod, which place it is expected the railway will pass at a distance of about ten miles on its way to the Crows Nest Pass. Leaving Calgary the railway follows the old Macleod trail closely across Fish and Pine Creeks. From Pine creek it diverges to the west of the trail by way of the Wilson Coulee, through which it reaches Sheep Creek a short distance above Lineham's saw mill. Crossing the creek it follows down the valley and around the point of high land which divides the valley of Sheep Creek from that of High river then up the valley of High river to the ferry, where it crosses the river and follows the trail to Mosquito creek which it crosses a mile east of the trail. From Mosquito creek it bears still further eastward and passes about seven miles east of the Leaving of Willow Creek on the Macleod trail. Near Macleod its course has not yet been determined. It is expected that grading will be completed to the Gap of the Crows Nest pass this fall. The country through which the road runs is much more rolling than along the line north of Calgary and there is more cutting and bridging, but the dirt is easier to handle being more dry and sandy than the wet black muck of the north. Consequently although the road costs the contractors more the graders are making better pay. The health of the men is good, but there is some of the same fever amongst the imported horses that killed so many last fall. Keith and Mackenzie have already lost 16 horses and have as many more laid off work through sickness. The country along the line from Calgary to High river is well settled by Ontario farmers and the good farm buildings, schools and churches are very noticeable. A large acreage is under crop, but a terrible hail storm in August destroyed nine-tenths of it, and will necessarily cause some hardship amongst the settlers. The storm worked a great change in the opinions of the settlers regard Edmonton. Before it occurred the Edmonton men employed on the road dare not mention this place or they would be jumped on from all sides. But since the storm Edmonton stock has been booming and many of the settlers looking at their bare fields think longingly of the full fields and big grain stacks of the Edmonton district.

The funeral of the late S. Wilkinson, took place on Saturday afternoon Sept. 12 from the Athabasca hotel to All Saint's church, where the funeral service was held by Rev. C. Cunningham, and then to the Edmonton cemetery. Deceased was a native of the county of Durham, England, and had gone to the Pacific Coast in the days of the gold excitement. Early in the 70's he was one of a party who crossed from the west side of the Rocky Mountains by the Peace river pass and then travelled northward from the Peace to the Liard river. At the Liard the party separated, Mr. Wilkinson being among those who went down stream to Fort Simpson, on the Mackenzie. The party which went up stream discovered the famous Cassiar diggings at the head of the Liard river, on the west side of the mountains. From Fort Simpson he went to Winnipeg with the H. B. boats by way of Cumberland, and from Winnipeg came to Edmonton in 1875 or 1876, and followed gold and coal mining chiefly ever since, besides farming on a small scale. His only relatives reside in England.

ORILLIA PACKET: The Packet had a brief call from Mr. Gibbons, of Coldwater, on his way from the Northwest. After leaving Mr. Carr, Mr. Gibbons, in company with Messrs. Bush, Manning and Peters, visited the Edmonton district, which in his opinion is the finest country for mixed farming he has ever seen. That opinion is evidently shared by others, as for many miles around Edmonton all the government land is already taken up.

E. HAZARD WELLS, of the Cincinnati Post, who was in town last week, was the leader of the "Frank Leslie's Illustrated" expedition to Alaska last year and had some very trying experiences in that region. Forty Mile Creek had still the favorite diggings but these were becoming worked out. The mining industry has not realized the expectations that were formed regarding it a few years ago.
